

GATORFOAM

Gatorfoam® is an extruded polystyrene foam board bonded between two layers of Luxcell® wood-fiber veneer

Why choose Gatorfoam?

- › The original, heavy-duty graphic arts board
- › Excellent reputation for great performance
- › New, bright white facer is the brightest board of its kind and great for digital and screenprinting
- › Offers 5' x 10' large format capabilities

GATORLITE™

GATORPLAST

Gatorplast® is an extruded polystyrene foam board bonded between two layers of high-impact polystyrene sheets

Why choose Gatorplast?

- › Smooth, high-impact facers resist warping
- › Lightweight and water resistant
- › Vinyl letters are repositionable

GatorLite™ is an extruded polystyrene foam board like Gatorfoam but offers a lighter facer

Why choose GatorLite?

- › Offers great value for mid-range applications
- › Rigid and durable yet can be cut with a knife
- › Available with white foam and natural kraft facers, as well as black foam and black facers

6.

GATORBLANKS

Gatorblanks® are thick panels of extruded polystyrene with no facers

Why choose Gatorblanks?

- › The white surface is entirely polystyrene foam and readily accepts non-solvent inks or water-based paints
- › Lightweight yet durable and easy to cut and form
- › Perfect for signs, displays and dramatic in-store lettering

1 Face priming will provide better results
 2 Do not expose polystyrene to solvent-based paints
 3 May be die cut in gauges up to 5mm or 3/16"

- › Standard product thicknesses include 3/16", 3/8", 1/2", 3/4", 1", 1 1/2", and 2" with a variety of facers and foam color combinations. *Custom thicknesses up to 3" are available on request.*
- › Facers – Bright white, black and natural kraft liners
- › Foam – White and black
- › Standard sheet sizes include 4' x 8', 5' x 8' and 5' x 10'. *Custom sheet sizes up to 5' x 10' are available on request.*
- › **Please call 800.626.3365 or visit our website for current product line information at www.alcancompositesusa.com**

- Levi's® Red Tab sign digitally reproduced and mounted on 1" black Gatorfoam displayed in all Sears stores.
- Sprint PCS® portable point-of-purchase kiosk was screen-printed and assembled using 1/2" white Gatorfoam.
- Two layers of 1" Gatorfoam served as backer for 6'-4" sign of Vegas Vic. Body parts and clothing pieces layered with several pieces of Gatorfoam in various thicknesses—painted, airbrushed, direct digitally printed, or mounted with vinyl, then routed and glued together. GLOWIRE electroluminescent wire attached with hot glue to silhouette.
- In-store signage application features multiple layers of 1/2", 3/4", 1" and 1-1/2" white Gatorfoam spray painted, screenprinted and routed.
- Retail sign letters fabricated using 1" white Gatorfoam, painted and CNC routed. Sign base uses 1" white Gatorfoam painted and saw cut.
- Durst Dice America, LLC, direct printed these air guitar giveaways on 3/16" white Gatorfoam and cut out with the i-cut® automated digital die cutting system.
- In-store scoreboard sign features multiple layers of 1/2", 3/4", 1" and 1-1/2" white Gatorfoam spray painted, screenprinted and routed.
